Education

MSc Information Technology *Sept. 2011 - Jun. 2012*
Department of Computer Science and Engineering
The Hong Kong University of Science and Technology

BEng Electronic Information *Sept. 2007 - Jun. 2011*
Department of Electronic Information and Control
Beijing University of Technology

Teaching Experience

The Society Of Boys' Centre Chak Yan Centre School *June.2025*
- Taught Python Turtle, basic programming concepts, and guided students in completing their Python drawing projects for the digital art Python competition.

Society of Boys' Centre Shing Tak Centre *Mar. 2025 - May. 2025*
- Served as a tutor, assisting students in coding classes to enhance their understanding and skills.
- Designed the curriculum of accelerometer sensors using a sit-up app, creating an interactive learning experience that fostered engagement and practical application.

Hong Kong Red Swastika Society Tai Po Secondary School *Sept. 2024 - Feb. 2025*
- Served as a tutor, assisting students with block-based coding projects while teaching essential programming concepts.

youCodia Academy: 3-month full-stack developer training program *2019 - 2023*
- Designed the complete curriculum for the training program, incorporating project-based learning and gamification to enhance student engagement.
- Taught a range of subjects, including HTML, CSS, JavaScript, ReactJS, Node.js, databases, and networking.
- Supervised and guided students in completing their final full-stack projects, ensuring they applied their skills effectively.

Working Experience

Youth Global Network, Project C, Senior Software Engineer, Hong Kong *Jan. 2018 - Present*

RAG Chatbot: A chatbot designed to answer user questions about blocks

- Developed in Python using LangChain, Pinecone, and Google Vertex AI

youCodia: An online platform for learning programming built on MIT App Inventor.

- Developed the frontend using ReactJS and Material UI, utilizing Redux for state management and React Router for navigation.
- Implemented the backend with a microservices architecture using Node.js, Apollo, GraphQL, Prisma, and Nexus.

Teacher Console: An online application for teachers to create youCodia assignments and tutorials.

- Maintained the project developed with ReactJS and the Next.js framework.

Clarity English, Senior programmer, Hong Kong *Jun. 2012 - Jun. 2018*

Web App Development

- Using Elm, Typescript, and Less to develop the cross platform application.

Adobe Air and Flex Application Development

- Used MXML and actionscript 3 develop the cross platform application with PureMVC framework.

Computer Skills

Application: Photoshop, Axure, Balmsiq.

Technical Skills: HTML, CSS, JavaScript, TypeScript, ReactJS, Python, Git, Elm, Less, Gulp, SQL, PHP.

Other

Language: Mandarin: native, Cantonese: intermediate, English: Fluent
